HALTON REGION PLANNING LIBRARY SUBJECT LISTING

These pages list all documents in the Halton Region Planning Library, located in the Planning and Development Department of the Regional Municipality of Halton, 1151, Bronte Road, Oakville, Ontario.

The documents are listed in the order of 68 subject category codes, as detailed in the Table of Contents. The order within each category is in accordance with the access code, by which the documents are arranged on the library shelves, except for the large size documents, which are placed together, also by access code, by themselves. Some documents are only available from the Councillors' Library and they are so footnoted in the listing.

The categories are also grouped by subject code (indicated by the first letter of the category code). At the end of each subject listing, a cross-reference listing for that particular subject is also provided, which contains documents coded under other subjects but cross-referenced to this subject.

For more information on this library system, the reader is referred to the companion publication GZ8202, Halton Region Planning Library System, June 1982.

With the large amount of information presented on the following pages, it is difficult to eliminate all errors and inacurracies. Please inform us of such occurrences so that corrections can be made in the next edition, which is expected in about six months.

Brief Description of Listing Headings

AC CODE	Access Code, containing the subject category code (as shown in the Table of Contents) and a sequence number, to be used for locating the document on the library shelves.
X REF	Cross-reference Subjects, also the first letter of the category code (as listed in the Table of Contents), indicating where the document may also appear in the listing.
LOCATION	Geographic location to which the document pertains.
TITLE	Document Title, which may have been shortened by dropping non-essential words.
YEAR	Year of publication.
SOURCE	Acronym of publishing agency or truncated form of author's last name.
REC #	Record number for system use.
